

America's Future

My job is to deliver America's future to school,
But to do that safely, you must understand some rules.
These children are our future
I must deliver them safe and sound.
So please show me a little respect,
when I'm driving my bus thru town.
If I need to change lanes, don't rush up beside me.
If my stop sign is out, Don't rush right by me.
Do you know how frustrated I get every day when I get to
the school and your car is in my way?
If the sign says "BUSES ONLY", don't drive your car thru
that street.
If the caution lights are flashing, that's a school zone.
Please don't speed.
Could you live with yourself if a child got hurt,
because you ran my stop sign, because you were late for
work?
Could you look those children's parents in their eyes and
explain why getting to work on time was more important
than their children's lives?
We can avoid such tragedies if we could find a way to work
together.
Your consideration and understanding will keep our
children safe forever.
